

Interior Plumbing - 1250 Gallon, 10' Max Burial, Polyethylene Septic Tank

NOTES:

1. 10 foot maximum burial depth.
2. Tank, interior compartment baffle, manholes, inlet and outlet are rotationally molded from 614 lbs of NOVA SURPASS #245 HDPE.
2. For ease of installation, apply liquid dishwash detergent to abs or pvc pipe before slipping inside Fernco couplings.

These drawings represent a proprietary design of Greer Tank & Welding and may not be used for source design or procurement purposes by other than Greer Tank & Welding
