

Interior Plumbing - 1250 Gallon Low Profile, 4' Max Burial, Polyethylene Septic Tank

NOTES:

1. Four foot Max Burial depth.
2. Tank, interior compartment baffle, manholes, inlet and outlet are rotationally molded from 450 lbs of NOVA SURPASS #245 HDPE.
3. For ease of installation, apply liquid dishwasher detergent to abs or pvc pipe before slipping inside Fernco couplings.
4. Tank shall be molded a green color.

These drawings represent a proprietary design of Greer Tank & Welding and may not be used for source design or procurement purposes by other than Greer Tank & Welding
